

## Brendon Beirne

### Principal Engineer Roads & Transport Lead Road Safety Auditor

#### Education

Bachelor of Engineering (Civil)  
Master of Business Administration (Tech Mgt)  
Graduate Certificate of Infrastructure Asset Management  
Graduate Diploma of Project Management

#### Professional Affiliations

Professionals Australia  
Institution of Engineers Australia  
Chartered Professional Engineer, Engineers Australia

#### Responsibilities and Experience

Brendon has played a key role in many significant State and Federally funded engineering projects in the public and private sector. He has widespread experience leading and working with multidisciplinary teams and alliances in the development and delivery of major road and transport systems that now shapes Sydney and parts of regional and rural NSW.

Throughout his career, he has secured and managed significant amounts of financial and human resources in a number of notable multi-million dollar projects including; as an Assistant Venue Transport Manager for the Athletes Village during the Sydney 2000 Olympic Games; as a specialist technical advisor during the tender assessment of the Sydney Light Rail in 2014; as a Project Manager for the formation and commencement of the \$48m Bells Line of Road Corridor Improvement Program in 2013-2014; and as a site engineer during the construction of the Lane Cove Tunnel between 2003 and 2007.

Most recently he manages the development of numerous Road Action Plans (RAPs) for key road corridors including a RAP for Victoria Road to develop a sustainable program of works to improve safety, performance and place amenity.

Brendon's areas of expertise include:

- Senior engineering advice and leadership
- Project, contract, design and construction management
- Strategic management and development of transport infrastructure
- RPEQ and RPEng assessor for Professionals Australia for civil engineering and management
- Road Safety Auditor – Level 3 Lead Auditor
- Asset management, principles and application in practice
- Investigations and preparing reports for Local and State Government agencies
